Subject: Update on the group project.

Dear Ms. Harshini,

I am writing to give an update on the group project we are working on, CampusCue. We have already finalized the User Interface of the website, including the login page, user dashboard, and the profile page. We have had issues with getting access to the timetable change updates and the faculty details and were hoping that you would request the Admin Department for access. Our team member, Grace, is working on the backend code. We expect it to be done and ready for testing by Monday, 12th October.

Please let the team know when you will be talking to the Admin Department, as access to the timetable and faculty details is crucial for the backend code.

Looking forward to hearing from you.

Regards,

Rishitha Eunice.
